

SET 1409

Innovative design provides for enhanced clinical advantages and facilitates CT and MR based brachytherapy planning.

Cervix, Endometrium

Well-Accepted Design

The CT/MR Fletcher (FSD) Applicator leverages the well-accepted intrauterine tube and ovoid structure of the Fletcher-Suit-Delclos design, while enhancing usability and flexibility. The connecting bracket is designed with concentric locking knobs that fix the intrauterine tube in place between the ovoids, while the lateral positioning remains unrestricted, providing a high degree of flexibility and adaptation to anatomical conditions.

Adjustable Rectal Retractor

The CT/MR Fletcher Applicator Set includes an adjustable rectal retractor for immobilization without packing. Additionally, three ovoid pairs of varying sizes and four intrauterine tubes with different lengths are included to accommodate a wide variety of anatomies.

MR Conditionality

All materials for this applicator, such as medical grade titanium, have been selected to enable MR conditionality for enhanced planning and structural integrity, to give you the confidence for accurate placement and treatment.

Features

- Ovoid pairs in 2.0 cm, 2.5 cm and 3.0 cm diameters
- 3.2 mm intrauterine tubes with 2 cm, 4 cm, 6 cm and 8 cm lengths
- MR conditional for 1.5T and 3T
- Lightweight construction that is simple to assemble
- Rectal retractor may eliminate need for packing
- Expected lifetime is 5 years
- Applicator also available with connections for Varian and Elekta/Nucletron transfer tubes

Set Content SET 1409

Item	Part number
2 Ovoids, 2.0 cm diameter	0612-12
2 Ovoids, 2.5 cm diameter	0612-11
2 Ovoids, 3.0 cm diameter	0612-10
1 Ovoid Tube (Colpostat)-Left	1409-L
1 Ovoid Tube (Colpostat) – Right	1409-R
1 Intrauterine tube (Tandem), 2 cm	1409-2
1 Intrauterine tube (Tandem), 4 cm	1409-4
1 Intrauterine tube (Tandem), 6 cm	1409-6
1 Intrauterine tube (Tandem), 8 cm	1409-8
1 Cervical stop	0508-10
1 Spacing Bracket Right	0508-06
1 Spacing Bracket Left	0508-05
1 Tandem Lock Knob	0702-16
1 Distal Bracket Lock Knob	0702-17
1 Spacing Bracket Lock Knob	0508-08
1 Tandem Clamp	0702-18
1 Rectal Retractor	0704
1 Stainless Steel Allen Wrench	7311
1 Stainless Steel Ruler – 15 cm	7610
1 Sterilization Tray ¹	96-1522A
1 Sterilization Caps (package of 10)	LAZ17-03
1 Instruction for Use	

Required Items

Item	Part number
Transfer Tube, D=3 mm, L =1000 mm, Color code: green, Channel: 1	LAF1000-1
Transfer Tube, D=3 mm, L =1000 mm, Color code: yellow, Channel: 2	LAF1000-2
Transfer Tube, D=3 mm, L =1000 mm, Color code: blue, Channel: 3	LAF1000-3

Optional Items

Item	Part number
2 Ovoids, 1.5 cm diameter (Optional item – also called mini-ovoids)	0612-16

Replacement Items

Item	Part number
1 pkg. Titanium Screws (package of 6 ea. for Rectal Retractor)	SCR-TI-005

¹ Manufactured by PST Plastic Sterilizing Trays Corporation

* When ordering from BEBIG Medical, use the article number SETM for the set and LCZ for spare parts

* For complete information and prior to use please read the Instructions for Use
